Dolley Madison

"Dolley Madison Star"

Dolley Payne Todd Madison (May 20, 1768 - July 12, 1849) was the spouse of the fourth President of the United States, James Madison. During the previous administration of Thomas Jefferson, a widower and their friend, she occasionally acted as hostess for him to fulfill the ceremonial functions more usually associated with the President's wife. Thomas Jefferson gave her the moniker "First Lady" of the United States, (better than "Presidentress" which had been considered) and our first "First Lady" continued that role with her husband from 1809 to 1817. She was well known for her social gifts and helped define the role of the First Lady. Her success as a hostess contributed to increasing the popularity of Madison as president. She also aided in the completion and furnishing the interior of the newly constructed White House, and was responsible for saving many of the White House treasures when the British burned it down during the War of 1812.

We dedicate this month's Block of the Month to the memory of all women who played such a vital role in the creation of our country.

"Dolley Madison Star" is a quick block to assemble, and lends itself to many combinations of patriotic and other fabrics.

If you win the blocks, you might consider a layout like #11, combining it with "Churn Dash" blocks which creates an interesting secondary pattern.
